

## Technical change to tag holder of Type SchT 5 and SchT 5S

Dear Madam or Sir,

the products listed below are subject to a product change and will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications mentioned have been made to support our ongoing commitment to continual improvement and ongoing product development.

### 1. Initial situation

In terms of the growing importance of sustainability, we are setting new Standards by using recycled material for our tag carrier.

In this way, we actively contribute to the conservation of natural resources and support the responsible use of raw materials.

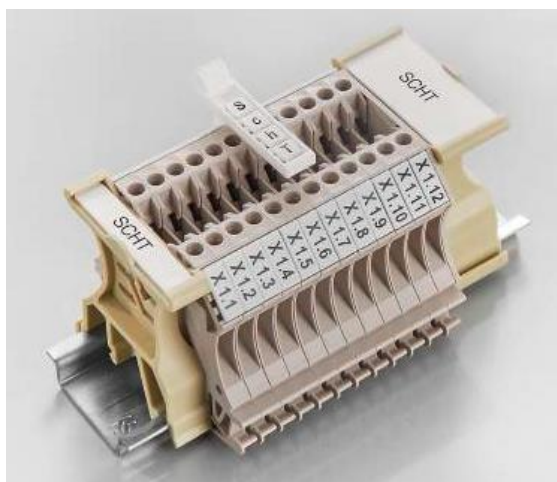

Thanks to highly developed know-how at the Detmold site and the separation of waste by type within the production sites, we ensure that only high-quality recycled material is used.

### 2. Technical change

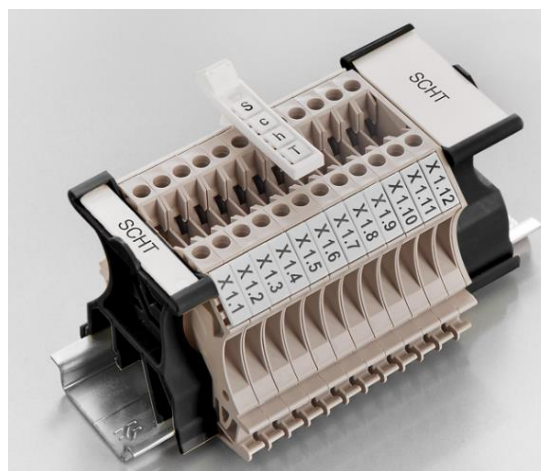

Special preparation of the plastic and optimized adaptation of the injection moulding process ensure that the tag carrier has the same outstanding mechanical properties.

Only difference is the Color. From Beige to Black.

Old version

New version

### 3. Reason for change

This is a significant step towards reducing our ecological footprint and underlines our commitment to a sustainable future.

### 4. Availability

The change will be done in Q3 2025

### 5. Affected parts

SchT 5 - 0292460000  
SchT 5S - 1631930000

We hope that the changes will benefit your business and will not affect you in any significant way and apologise in case of any inconvenience caused. Please rest assured that we will do everything possible to achieve this product change as smoothly as possible with minimum or no business disruption.

For further questions or if you need any additional assistance or information, please contact your local sales office directly. All contacts for sales representatives are available here: <http://www.weidmueller.com/contact>

Details of this and any other product changes can also be found on our web page by following the link shown below
