Surface: Super Speed (fast in-game reaction)

3 mm profile

The Savio Prism Edition Super Speed L mouse pad is the perfect choice for gamers who value speed, precision, and aesthetics. Its large 700×300 mm format provides full freedom of movement and comfortable space for both mouse and keyboard.

The Super Speed surface ensures ultra-fast glide and precise tracking, while the 3 mm thickness and non-slip base deliver comfort and stability even during intense gaming sessions. Durable stitched edges protect the pad from fraying, keeping it looking great for a long time. Additionally, the water-resistant coating prevents damage from spills, and the prismatic color design gives your setup a unique look.
