

BITservo® UV 2XSLCHK-J

Flexible, halogen-free motor connection cables for frequency converters, rated 0,6/1kV

industrial application

internal application

external application

underground application

EN 60332-1

EN 60332-3

oxygen index

halogen-free
EN 60754

UV resistance

high flexibility

EMC

low smoke emission
EN 61034

Technical data:

Operating temperature:

Fixed installation: -40°C do 90°C

Min. installation temp.: -5°C

Max. conductor operating temperature:

90°C

Max. conductor temperature in shortcircuit

(1 sec.): 250°C

Operating voltage: $U_0/U=0,6/1kV$

Test voltage: 3500V

Insulation resistance: > 2000MΩxkm

Capacitance:

conductor/conductor = 80 to 250nF/km

conductor/screen = 140 to 410nF/km

Min. bending radius:

Ø < 20 mm – 7,5xØ

Ø > 20 mm – 10xØ

Construction:

Conductors: bare, annealed copper conductors, multi-stranded class 5 acc. to EN 60228

Insulation: cross-linked polyethylene (XLPE)

Core identification: black, brown, grey, green-yellow

Core arrangement: cores twisted together

Screens: electrostatic screen made of aluminum backed polyester tape and a second screen made of tinned copper wire braid with coverage ≥ 85%

Outer sheath: special halogen-free compound, self-extinguishing and flame retardant (acc. to EN 60332-1, EN 60332-3-22, IEC 60332-3 cat. A), UV resistant.

Outer sheath colour: black

Application:

Cables with special construction, used to supply power to motors from frequency converters while maintaining full electromagnetic compatibility (EMC). The XLPE insulation improves current carrying capacity maintaining at the same time low capacitance in comparison to PVC insulated cables. The cables are suitable for both fixed installation and flexible connections in industrial equipment, process lines, and machines operating in dry and damp rooms. Black UV-resistant sheath enables installation outside of buildings. The cable is also suitable for direct underground installations. Cables classified according to **EN 50575 (CPR)**.

Cat. no.	n x mm ²	Outer diameter [mm]	Current-carrying capacity [A]	Screen cross section [mm]	Approximate cable weight [kg/km]	Cu [kg/km]
