

Product Technical Data Sheet

Ceramic grease

Product ideal for use on heavily mechanically and thermally loaded elements. Operates in temperatures from -40 to 1200°C. Prevents metal „baking”. Has an anticorrosive and antiscoring effect - an excellent protecting agent. Facilitates the dismantling of parts that have been lubricated beforehand. Does not contain metal compounds or silicone. It is resistant to chemical substances, water and weather conditions.

Application:

- upon the installation of boilers, furnaces, motors, heating systems, water pumps,
- exhaust systems,
- mounting screws for collectors,
- brake systems,
- mounting screws for heads,
- mounting screws for hubs,
- ABS, ASR and ESP systems.

Physicochemical properties:

Parameters	UoM	Result
Relative density at 20°C	g/cm ³	0,9
Appearance	-	white colour
Odour	-	characteristic for hydrocarbons

Packagings:

Volume	Type of packaging	Collective packaging	Item Code
100 ml	aerosol	4 / 20	ART.AGT-166
400 ml	aerosol	4 / 24	ART.AGT-177

Warehousing:

Store in sealed containers in dry and well ventilated areas away from sources of heat and ignition and direct sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Data contained in this document are consistent with the current state of our knowledge. They describe typical product properties and applications. However, it is up to the user to examine the suitability of this product for specific applications. We deny liability for the obtained results on the grounds that application conditions lie beyond our control.
