

Product Technical Data Sheet

Graphite grease

Grease with graphite addition. Contains specially selected additives for excellent lubrication and effective corrosion protection. The addition of graphite increases the grease resistance to loads. It is characterised by water resistance.

Application:

- car springs,
- worm gears and toothed gears,
- threads and screws exposed to corrosive action,
- chains and other heavily loaded friction nodes operating at temperatures between -20°C and 50°C.

Physicochemical properties:

Parameters	UoM	Result
Colour	-	grey
Specific weight	g/cm ³	0,9
Solubility in water	-	not soluble
Flash point	°C	> 200

Packagings:

Volume	Type of packaging	Collective packaging	Item Code
65 ml	squeezer	6 / 24	ART.AGT-079
100 ml	aerosol	4 / 20	ART.AGT-148
400 ml	aerosol	4 / 24	ART.AGT-175

Warehousing:

Store in a well-ventilated, cool place. Keep away from children. Protect from sunlight and do not expose to temperatures exceeding 50°C. Professional application: keep in original, properly labelled, airtight containers in a cool, dry, well ventilated storage room (in a fireproofed building).

Data contained in this document are consistent with the current state of our knowledge. They describe typical product properties and applications. However, it is up to the user to examine the suitability of this product for specific applications. We deny liability for the obtained results on the grounds that application conditions lie beyond our control.
