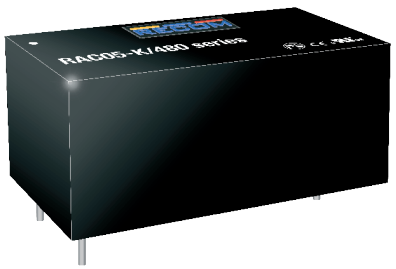
RAC05-K/480

5 Watt
2“ x 1“
Single Output



Description

The RAC05-K/480 series of 5 watt AC/DC units are specially designed for harsh industrial and outdoor mains conditions. These PCB-mount power supplies are rated to OVC III conditions from 100-480VAC nominal input lines with phase-to-phase or single phase operation without any external components needed. The modules support an operating temperature range from -40°C to +80°C and come with fully protected outputs as well as EMC Class B compliance. All these features make them an ideal fit for integration into smart grid, renewable energy, smart metering and IoT applications.
