

Rated current SEC: **1,5 - 3A**  
 Rated voltage PRI: **230V 50/60Hz**  
 Control type: **5-step regulation**

Autotransformer regulators serve the purpose of airflow control, fitted in singlephase ventilation and heating systems. Setting temperature range from 10°C to 30°C. The choice of one of two operating modes allows for use in heating and cooling systems. Turning the controller output on and off is done by pressing the thermostat knob, which allows the memory to be set. Made with Class II insulation and protection grade IP54, maximum ambient temperature 40°C, thermal class of insulation B (130°C). Manufactured in compliance with EN61558-2-13.

Type	Current [A]	Dimensions [mm]					Mounting	Weight [kg]
		A	B	C	D	E		
<b>ARWT 1,5/1</b>	1,5	96	166	91	78	148	M4	1,50
