

Large Bore Stainless Steel Luer Lock Dispense Tips (Long Length)

Stainless steel luer lock tips provide a highly reliable and dependable method of dispensing a wide variety of materials.

All tips within the range are designed to fit standard luer lock connections.

Available in various lengths and gauge sizes, these large bore dispense tips provide increased fluid flow rates or deposit sizes for a wide variety of dispense applications.

The long length tube design allows for fluids to be easily dispensed into hard to reach areas which conventional dispense tips cannot reach.

Features

- Nickel Plated Hub
- Stainless Steel 304 Tube
- Luer Lock Connection
- Gauge size marked on hub for easy identification

Benefits

- Can dispense into obscure areas with ease
- Larger gauge size provides a higher flow rate
- Increased chemical compatibility over plastic hub dispense tips
- An efficient way of improving productivity without compromising on dispensing quality

Specifications
