

Product Overview

1. Control Method: External Control
2. Driver IC: WS2811
3. IP Grade: IP68
4. 12mm pixel light, adopts the slow decay, high brightness imported chips as its light source.
5. A polygonal wall, hotel / club / KTV places such as teardrop-shaped ceilings, decorative heighten the atmosphere.
6. Buildings, advertising wall signs, festivals and other decorative urban areas since its lighting effects.
7. Building castles iconic buildings, bridges, parks and other contours outline, from the decorative lighting effect.

Mechanical Dimensions (Unit:mm)

Electrical Parameters

Working Voltage	5V	Working Current	15mA \pm 5%(R), 17mA \pm 5%(G), 15mA \pm 5%(B)
Pixel Pitch	100/150mm	LED Q'ty	50pcs per string or Customized
Driven Method	Constant Current Driven	IP Grade	IP68
Working Temperature	-20°C ~ 50°C	Signal Transfer	WS2811: Series Transfer
Emitting Angle	120°		

Wire Connection
