What is the Self-locking cable tie ?

Qoltec brand Self-locking cable tie are made of flexible and durable nylon. They are designed to connect different types of elements together, such as cable organization. Thanks to their versatility, they are used virtually everywhere. Among other things, they can be found in the household, telecommunications, automotive workshops, gardening, electrical installations, warehouses and more.

How to use Self-locking cable tie ?

The use Self locking cable ties is very quick and easy. Just fit the clamp to the objects to be joined, then put the end of the clamp through the hole and clamp. The clamp is very flexible and elastic, which allows you to easily adjust the clamp. In addition, the evenly spaced teeth on the tip will make it easier to accurately fit the parts to be joined.

Choose high quality

The Qoltec brand Self locking cable tie is a top quality, reusable, tear-resistant product. The Self locking cable ties retain their properties in the temperature range from -35 C to +85 C. They feature UV resistance and chemical resistance.
